"Shot through, like a laser beam with intense flavors of grapefruit and pineapple, the 2009 Kunde Magnolia Lane Sauvignon Blanc jumps from the glass and envelopes the room with its seductive scent! Any who come near are powerless to resist it's hypnotic pull, causing all to hold out their glasses for more! Giant grilled prawns and skewers of summer squash and eggplant jump on the grill, eager to be served alongside such a crisp, fresh, bountiful wine! Subtle hints of guava nectar linger in everyone's glass. "We feel so alive!" they cry. Do we get a little carried away about our Kunde Magnolia Lane Sauvignon Blanc? Absolutely! Red Wine of the Month

WINEMAKER'S COMMENTS
"The deep ruby color of the 2004 Kunde Estate Cabernet Sauvignon Drummond Vineyard promises depth and richness that the wine delivers. The aromas are full of luscious black raspberry and boysenberry, with a hint of cedar. The same berry and cedar character follows through in the flavor, with rich chocolate bringing up the rear along with nicely-structured tannins. Lamb chops, tender braised ribs, or beef tenderloin will make this wine sing. If Captain John Drummond were here today, you would have to pry his hands off the bottle to get some for yourself."

ENJOY LUNCH WITH WINEMAKER TIM BELL AT SAFARI WEST IN SANTA ROSA

Join us for lunch at Safari West in their Savannah Room! Partake in a scrumptious safari ranch style BBQ paired with Kunde Family Estate's finest wines. After lunch, heed the call of the wild with an adventurous safari. Explore the entire 400 acres of Safari West in a 3-hour adventure led by a highly experienced guide in an open-air safari vehicle. The experience includes a drive through the "Sonoma" African Bush where you will be at one with the wild, observing giraffe, gazelle, scimitar-horned oryx, ostrich and other species of African antelope all living together and sharing this exotic savanna setting.

You may find a cape buffalo and a zebra enjoying a refreshing break at the nearby watering hole; look in another direction and see eye to eye with a wildebeest ... if you're lucky!

The habitat was designed to give the animals the ability to interact and roam about freely. Then it is on foot for a journey through the grounds of Safari West where you will spot a cheetah or two, giraffes sticking their necks out for you, the primates on lemur island going ape, and resplendent birds soaring over in their amazing open-air aviary.
